

Oracle Training

Issues

- Limited budget
- Project deadline overload
- Need customised training
- Need to up-skill your team
- Lack of skills In-House

Solutions

- Priced to work with the tightest budgets
- You choose the time and place
- Flexible, customised courses
- Instructor-led courses in all major DBs
- Expert trainers with real-world experience

For all versions of Oracle, Discoverer, Brio, TOAD, MS SQL, Ingres, My SQL,
- professional.ie has it covered.

The ability to customise programmes specifically for our clients'
projects is what sets professional.ie apart.

While others offer blanket, "catch-all" courses, we deliver precisely what is needed to make your team-members more efficient, effective and timely - no more, no less. This means that you do not waste your budget training your people with skills they do not need - and may never use.

Clients include: Citco, Dell, IBM, UPC Chorus, SGS, Government and Local Government bodies, HSE, NUIG, LIT etc.

Contact us today - let's talk about how we can deliver your training requirements.
